STATUS
kitchen innovations

Why choose innovative household products made by Status?

The reasons are the following:

- **Status products are fit for personal use and use in households, they ease our everyday chores and make them more interesting.**
- **Status products bring us benefits.**
- **Status products are innovative and different from other similar products on the market.**

Innovative household products involve the following product groups:

High Vacuum Storage

Storing food in high vacuum prolongs food's shelf life in a natural way and preserves food's freshness. Users who already came to know and tried vacuum food storage are pleased to recommend it to others as well. Vacuum is achieved by using a manual or electric vacuum pump to create negative pressure.

- **Vacuum packing machines** (five types: **SV750** – the most powerful, **HV500**, **EV500**, **FV500** and **BV500** – user-friendly), which are complemented by **vacuum bags and foil rolls** (available in six different sets), **electrical vacuum food saver** and electrical **vacuum pump**.
- **Vacuum accessories** which include **vacuum containers** in different designs and sizes (rectangular, square and round, volumes from 0.5 l to 4.5 l), **universal vacuum lids** for storing food in open cans and original packaging (five different sizes from 6.4 to 26 cm in diameter), **vacuum stoppers** to maintain the freshness of quality wines and other drinks, **vacuum jug** for storing different kinds of drinks, especially freshly squeezed juices and **vacuum pump**.

Cooking Accessories and Kitchen Utensils

Small but practical kitchen accessories are helpful when preparing meals and ideal for faster food preparation. This product group consists of different cutters: **onion and garlic cutters**, multi-purpose **fruit and vegetable cutters**, all-purpose **grater**, multi-purpose opener, spice and herb **grinder**, defrosting tray, stainless steel soap, peeler, Mamas cookie cutters set and others.

Kitchen accessories make food preparation and cooking easier even for those who see such chores as an unnecessary or boring everyday routine. With the use of Status accessories everyone can become a great cook.

Hangers and Shelves

Over the door hangers are one of the first and most valued Status products, now available in different colours and materials. This group also involves an **adjustable clothes hanger** (can be adjusted to fit the size of clothes) as well as **shelves** and **suction hooks** that can be attached to smooth bathroom or kitchen surfaces with the help of suction pads (no more drilling or use of adhesives). All products from this group are portable and can be used where needed – at home, in holiday homes or during vacation. With funny illustrations on product packages this group of products is perfect for gifts.

Household Products

A product group we have just started to develop products for. Involves an environmental-friendly product, **Green Press Plastic Bottle and Can Crusher**, which enables you to reduce the volume of waste plastic bottles and cans for up to 80%!

Vacuum packing machines

Vacuum packing machines are suitable for storing dried meat products, fresh meat, fish, fresh or blanched vegetables for the winter, hard cheeses, pasta, dried fruits, bread and other food items.

Storing food in vacuum sealed bags prolongs food's shelf life and freshness in a natural way. Five machine types with similar functions but different vacuum packing power and target user. Choose according to your wishes and needs!

Functional qualities.

- Automatic vacuum packing function (vacuum is created automatically and vacuum packing process is stopped when a pre-set negative pressure is reached).
- Manual vacuum packing function for storing sensitive and moist food items (vacuum packing process can be stopped manually when estimated that enough air has been removed from the bag).
- Protective container for excess liquid.
- Packages with vacuum packing machines are well adapted to be sent by mail (crash tests were performed on all machine types).

Food quality is maintained.

- Vacuum packed food can be frozen, stacked in the basement or on shelves.
- Food with high moisture content does not dry out, crunchy food does not soak, and dry food (e.g. brown sugar) does not harden, because air cannot affect it.

Economical user.

- Due to longer shelf life of food, we produce less waste from perishable foods and we do less shopping as we buy larger food packages that are less expensive.
- Bags are made of PA/PE foil – impermeable material neutral in taste and smell. Bags can be reused.

All sets of vacuum packing machines include:

- a vacuum packing machine
- 5 small vacuum bags, size 200 mm x 280 mm
- 5 large vacuum bags, size 280 mm x 360 mm
- 1 narrow foil roll, size 200 mm x 3000 mm
- 1 wide foil roll, size 280 mm x 3000 mm
- 1 accessory hose for vacuum packing with containers and other vacuum accessories
- 1 foil cutting blade
- 1 user manual

Comparative table of food storage *

- **Food storage IN THE REFRIGERATOR**

Type of food	Regular storage	Vacuum storage
Boiled food	2 days	10 days
Fresh meat	2 days	6 days
Boiled meat	4 - 5 days	8 - 10 days
Fresh fish	2 days	4 - 5 days
Hard cheeses	12 - 15 days	50 - 55 days
Soft cheeses	5 - 7 days	13 - 15 days
Fresh vegetables	5 days	18 - 20 days
Fresh herbs	2 - 3 days	7 - 14 days
Washed lettuce	3 days	6 - 8 days
Fresh fruit	3 - 7 days	8 - 20 days
Desserts	5 days	10 - 15 days

- **Food storage IN THE FREEZER**

Type of food	Regular storage	Vacuum storage
Fresh meat	6 months	18 months
Ground meat	4 months	12 months
Poultry	6 months	18 months
Fish	6 months	18 months
Fresh Vegetables	8 months	24 months
Mushrooms	8 months	24 months
Herbs	3 - 4 months	8 - 12 months
Baking goods	6 - 12 months	18 months
Coffee beans	6 - 9 months	18 -27 months

*according to the data of the Status' Development Department
Only approximate time of duration is indicated in the tables, as it depends on the initial state (freshness) and way of preparing food. We have considered storage of food at +3 °C / +5 °C in the refrigerator and at –18 °C in the freezer.

SV750
vacuum packing machine

The most powerful and semi-professional vacuum packing machine made by Status. It is designed for everyday use in households where larger amounts of dried meat products are produced and homegrown vegetables are stored. Indispensable appliance for every rural family and every demanding urban family.

- Automatic and manual vacuum packing function for delicate foods.
- Double-piston pump.
- The machine creates negative pressure of -850 mbar.
- Pump volume: 22 litres per minute.
- Lifespan: approx. 10 000 vacuum packing cycles.
- The set also contains 5 small bags (size 200 mm x 280 mm), 5 large bags (size 280 mm x 360 mm), 1 narrow foil roll (size 200 mm x 3000 mm), 1 wide foil roll (size 280 mm x 3000 mm), accessory hose for vacuum packing with containers and other vacuum accessories, and a foil cutting blade.

EAN: 3831091700183

EAN: 3831091700077

HV500
vacuum packing machine

Designed for users who appreciate simplicity, demand quality of stored food and vacuum pack smaller amounts of food daily. It is recommended to households where homegrown vegetables are stored and smaller amounts of dried meat products are produced.

- Automatic and manual vacuum packing function for delicate foods.
- Single-piston pump.
- The machine creates negative pressure of -750 mbar.
- Pump volume: 14 litres per minute.
- Lifespan: approx. 10 000 vacuum packing cycles.
- The set also contains 5 small bags (size 200 mm x 280 mm), 5 large bags (size 280 mm x 360 mm), 1 narrow foil roll (size 200 mm x 3000 mm), 1 wide foil roll (size 280 mm x 3000 mm), accessory hose for vacuum packing with containers and other vacuum accessories, and a foil cutting blade.
- Also available in sets with vacuum containers, lids and stoppers.

EV500
vacuum packing machine

Powerful enough to vacuum pack dried meat products and recommended for daily use. It is similar to HV500 as regards its technical details, differing mainly in appearance. Due to its small size, it can be kept on the kitchen counter. Ideal for urban families who favour nutritious food and like to enjoy healthy dishes throughout the year.

- Automatic and manual vacuum packing function for delicate foods.
- Single-piston pump.
- The machine creates negative pressure of -750 mbar.
- Pump volume: 14 litres per minute.
- Lifespan: approx. 10 000 vacuum packing cycles.
- The set also contains 5 small bags (size 200 mm x 280 mm), 5 large bags (size 280 mm x 360 mm), 1 narrow foil roll (size 200 mm x 3000 mm), 1 wide foil roll (size 280 mm x 3000 mm), accessory hose for vacuum packing with containers and other vacuum accessories, and a foil cutting blade.
- Proved to be suitable for loyalty programs in individual retail chains.
- Available in different colours.

EAN: 3831091701036

FV500
vacuum packing machine

The simplest one to use. It will be valued by those who prefer convenient food storage and do not vacuum pack larger amounts of food at once. Ideal for smaller kitchens as it can be put away in almost every drawer.

- Automatic and manual vacuum packing function for delicate foods.
- Single-piston pump.
- The machine creates negative pressure of -650 mbar.
- Pump volume: 12 litres per minute.
- Lifespan: approx. 6 000 vacuum packing cycles.
- The set also contains 5 small bags (size 200 mm x 280 mm), 5 large bags (size 280 mm x 360 mm), 1 narrow foil roll (size 200 mm x 3000 mm), 1 wide foil roll (size 280 mm x 3000 mm), accessory hose for vacuum packing with containers and other vacuum accessories, and a foil cutting blade.

EAN: 3831091700329

EAN: 3831091701579

BV500
vacuum packing machine

User-friendly product, similar to FV500 as regards its technical details. It will be valued by those who prefer convenient food storage and do not vacuum pack larger amounts of food at once. Ideal for smaller kitchens and active people as it can be put away in almost every drawer.

- Automatic and manual vacuum packing function for delicate foods.
- Single-piston pump.
- The machine creates negative pressure of -650 mbar.
- Pump volume: 12 litres per minute.
- Lifespan: approx. 6 000 vacuum packing cycles.
- The set also contains 5 small bags (size 200 mm x 280 mm), 5 large bags (size 280 mm x 360 mm), 1 narrow foil roll (size 200 mm x 3000 mm), 1 wide foil roll (size 280 mm x 3000 mm), accessory hose for vacuum packing with containers and other vacuum accessories, and a foil cutting blade.
- Available in different colours.

Vacuum bags and continuous foil rolls

- Impermeable, food safe, neutral in taste and smell, reusable.
- Made of polyamide PA (ensures impermeability) and polyethylene PE (ensures the quality of seals).
- Foil thickness: 100 / 130 µm.
- Quality high-tech production for maximum efficiency of every bag or foil roll.

outer impermeable layer, polyamide - thickness 30 µm
inner layer, polyethylene - thickness 70 µm
inner ribbed layer, polyethylene - thickness 100 µm
outer impermeable layer, polyamide - thickness 30 µm

Bags are available in three different sizes and foil rolls in three different widths.

Available sets:

- Small vacuum bags, **200 x 280 mm**, 40 piece set (EAN: 3831091700015)
- Large vacuum bags, **280 x 360 mm**, 25 piece set (EAN: 3831091700022)
- Bags for salami, **120 x 550 mm**, 30 piece set (EAN: 3831091700039)
- Narrow foil rolls, **200 x 3000 mm**, 4 piece set (EAN: 3831091700046)
- Wide foil rolls, **280 x 3000 mm**, 3 piece set (EAN: 3831091700053)
- Foil rolls for salami, **120 x 3000 mm**, 5 piece set (EAN: 3831091700060)

According to customer's wishes, sets in various forms and different ways of packing can be arranged.

Why use Status bags and foil rolls?

First-class technology of bag manufacture is based on our own knowledge and years of experiences.

- Manufacturing equipment is serviced and upgraded annually.
- Raw materials are of European origin with all necessary and relevant certificates.
- Every year we produce approximately 5 million bags and foil rolls from 85 tons of material, daily production capacity is sufficient for 80 000 small bags of 200 x 280 mm.

Electrical Vacuum Pump

- Kitchen utensil designed for use with all Status vacuum containers, lids and stoppers.
- Its main defining characteristic is simplicity of use.
- Supplied with an additional attachment enabling you to hang the vacuum pump onto your kitchen wall and save space.

Available colour: white
EAN: 3831091701562

Electrical Vacuum Food Saver

- Designed for long-term vacuum storage of foods.
- It was initially developed as a bread saver, but is suitable for storing all kinds of other food as well.
- Easy to use – plug in the vacuum food saver, store the food item(s) and press the red button to vacuum seal it.

Available colour: white
EAN: 3831091700336

Vacuum containers

For everyday storage of fruits, vegetables, bread, salami, cheese, sweet treats, excess food, leftovers, sauces, soups and many more. Have the benefit of organized kitchen closets and refrigerator and make the best use of space and fresh air as stored food items are hermetically sealed.

Only by means of vacuum storage, i.e. removing oxygen from the packaging with the help of an electrical or manual vacuum pump, we can create an environment in which food's shelf life is prolonged. Users who already came to know and tried vacuum food storage are pleased to recommend it to others as well.

Simple use.

- Mobile and hygienic accessories.
- Use without electricity.
- For proper operation of accessories it is necessary to use a vacuum pump.
- All vacuum accessories can be used in combination with a manual or electrical vacuum pump or with an accessory hose supplied with vacuum packing machines.

We save time and money.

- We buy larger packages of food and store them into vacuum containers or bags in smaller quantities.
- Meat, poultry and fish are marinated in minutes as vacuum storage infuses food with flavour and allows for marinade to penetrate into the food faster.

Quality and convenience.

- Quality materials ensure a long lasting lifespan of vacuum accessories.
- Since all food is stored in containers, we avoid unpleasant odours in the room or refrigerator.

Food remains nutritious.

- Food stays fresh and healthy up to four times longer.
- Food is protected against loss of vitamins, minerals and flavour.

Vacuum Containers,
Timer Product Line

- Storage in vacuum containers extends the freshness and shelf life of foods up to four times.
- Containers made of transparent materials help you organize your refrigerator and shelves. Their use simplifies your kitchen life by maximizing valuable space (containers can be stored in piles, on top of each other).
- These airtight containers will prevent any unpleasant odours in your refrigerator.
- They are made of quality polycarbonate (a high impact resistance material) and therefore remain undamaged and closed on impact.
- The lids are made of ABS plastic and valves of silicone. All materials are germ-free.
- The use of vacuum pump is necessary to create vacuum pressure.
- Vacuum storage is also possible with the help of Status vacuum packing machines.
- The calendar on the lids allows you to mark food's shelf life or the date when the food was stored.
- Optionally available: drip tray and divider insert for even better organization in your refrigerator and individual containers.

Available colours: white, blue, red and green

Containers are available separately or in sets with a manual vacuum pump, in different volumes and different shapes (rectangular, square or round).

- Rectangular container volumes: 0.5 litre, 0.8 litre, 1.4 litre, 2 litre, 3 litre and 4.5 litre
- Square container volumes: 0.8 litre and 2 litre
- Round container volumes: 0.75 litre, 1.5 litre and 2.5 litre

Sets of Vacuum Containers

We offer different sets of containers which can be perfect gifts. We recommend the following sets:

- **5-piece set of smaller rectangular vacuum containers, Timer product line** (includes rectangular vacuum containers of 0.5 litre, 0.8 litre, 1.4 litre and 2 litre in volumeand manual vacuum pump)
- **5-piece set of bigger rectangular vacuum containers, Timer product line** (includes rectangular vacuum containers of 3 litre and 4.5 litre in volume, two drip trays and manual vacuum pump)
- **5-piece set of round vacuum containers** (2 round vacuum containers of 0.75 litre and 1.5 litre in volume, 2 drip trays and manual vacuum pump)

Available colours: white, blue, red and green

Drip Trays

- Drip trays are designed for storing moist and wet food in vacuum containers.
- Their use is recommended for storing fruits and vegetables after being washed or fresh meat, especially fresh meat prepared for barbecuing.
- You can also use a divider insert to divide a bigger vacuum container into compartments, so it can be used for storing different types of food.
- Drip trays are also recommended when storing snack or lunch meals, as vacuum prevents mixing of odours in the container.

Available colour: white

Vacuum Lids

- Vacuum lids allow you to vacuum seal food from opened tins, bags or containers and leftovers in your own cooking dishes, bowls and containers.
- They fit onto different-sized containers, bowls, tin cans, glasses, metal and stainless steel cooking pots, plastic, glass or ceramic dishes and glass jars.
- **Available in sets or separately; 5 sizes (lid 1: Ø 6.4 cm, lid 2: Ø 8.2 cm, lid 3: Ø 13 cm, lid 4: Ø 21 cm, lid 5: Ø 26 cm).**

Available colours: white, blue

lid 1: Ø 6.4 cm	lid 2: Ø 8.2 cm	lid 3: Ø 13 cm	lid 4: Ø 21 cm	lid 5: Ø 26 cm

Vacuum Jar Lid

- Comes in handy when pickling – faster and more effective vacuum sealing.
- Creates negative pressure in jars with pickled food, even when the jar has already been opened.
- Fits standard sized pickling jars and lids.

Available colour: white
EAN: 3831091700237

Vacuum Pump

- Status vacuum pump is a necessary component part of every vacuum set, container, lid or stopper. It creates vacuum by removing air from a container, bottle or bowl.
- It is designed to suit all Status vacuum accessories.

Available colour: white
EAN: 3831091701562

Vacuum Jug

- Juices are full of vitamins! Status vacuum jug is perfect for storing freshly squeezed juices, milk and other drinks.
- Storing drinks in vacuum prolongs their freshness and flavour.
- We save money and ensure hygienic storage with no unpleasant odours.
- The 1-litre vacuum jug is specially designed to fit handily into the refrigerator door shelf.
- For vacuum storage it is necessary to use a vacuum pump.

Available colours: white, blue and grey
EAN: 3831091700794

Cooking Accessories and Kitchen Utensils

Status kitchen tools make cooking and food preparation easier for both experienced and amateur cooks as with their help you can become masters of preparing delicious meals. Searching for a single tool appropriate for different types of food? Cooking is fun!

Preserving aroma and enriching food's flavour.

- Use directly on the dish (e.g. spices ground just before eating).
- The aroma of food is preserved and continues to enrich food's flavour.

Saving time and money.

- Shorter food preparation times as food items can be cut with only one move or ground with only a few twists.
- Foods difficult to prepare are not a problem anymore. There is no risk of getting cut when peeling or cutting smaller food items or chopping spices.
- Cooking does no longer have to be supervised non-stop.
- Use without electricity.

- Quality materials – stainless steel blades, ceramic core grinders, borosilicate glass lids, ABS plastic housings. Materials ensure long-life quality of products.
- The majority of products are suitable for cutting a wide variety of foods, not only those referred to in the product name.
- Our kitchen counter will probably stay clean and tidy.

All Status kitchen tools preserve food's nutritional quality and are indispensable on every vacation as they can be used without electricity.

Available colours: white in combination with orange, violet and white
V-shape Slicer
EAN: 3831091701043
V-shape Slicer mini
EAN: 3831091701050

V-shape Slicer

- A necessary part of every kitchen. Even dried meat products can be sliced in seconds!
- Designed for fast, yet smooth cutting. All sorts of food can be cut into even slices: cabbage, cheese, dense sorts of bread, salami, fruits and vegetables.
- With a handy holder for slicing round food items and protecting your fingers – additional safety lock provided.
- The thickness of slices can be precisely adjusted, paper thin slices to 3 or 6 mm thick slices.
- Slicer's V-shape blade is made of stainless steel. Its shape makes the slicing process even simpler.
- Also available in mini version.
- In 2008 this product was awarded bronze medal for innovation by the Chamber of Commerce of Dolenjska and Bela krajina in Slovenia.

Fruit and Vegetable Peeler

- With its first-class stainless steel blade this peeler is suitable for peeling all sorts of food (apples, carrots, potatoes, zucchinis, kiwi fruits etc.).
- Works both ways – can be pushed upwards or pulled downwards.
- Serrated blades enable you to peel tomatoes, kiwi fruits and even pineapples.
- Side loops allow you to easily remove imperfections from fruits or vegetables (e.g. potato sprouts).
- Suitable for right or left handed users.
- A simple and small machinelike gadget! A perfect gift!

Available colours: white, blue, red, orange, violet, green
EAN: 3831091700152

Available colours:
white, blue and green
Mushroom Slicer
EAN: 3831091700114
Multipurpose Slicer
EAN: 3831091700787

Multi-purpose Slicers

- Up to ten evenly shaped slices with one move and within seconds.
- Perfect for quick preparation of salads and decorations (e.g. slicing boiled potatoes, sausages, cucumbers, boiled eggs etc.).
- Mushroom Slicer (model C1) is perfect for slicing delicate foods such as mushrooms, cucumbers, zucchini, boiled potatoes, boiled eggs or frankfurters.
- Multipurpose Slicer (model C2) slices not only delicate foods but also radishes, tomatoes, kiwi fruits, canned fruit and soft cheeses.

Spice Grinder

- It is distinguished by its ceramic core Crushgrind with a 5-year warranty and suitable for grinding all sorts of dried herbs and spices (also salt).
- The grinder preserves the essence of spices – their aroma.
- Adjustable grinding – the thickness of ground herbs can be adjusted.
- Adjustable dosing – grind as much spices or herbs as needed into grinder's cover and sprinkle over the food where and when needed (e.g. only one plate of soup).

Available colours: white, blue
EAN: 3831091700121

Universal Grinder

- The universal grinder is designed for grinding smaller amounts of hazelnuts, almonds, chocolate, Parmesan cheese, dry bread (to make breadcrumbs) and other foods.
- Grind and sprinkle where and when needed – for decoration or better taste.
- The most popular gift.

Available colours: white, blue
EAN: 3831091700152

Nut Cracker

- Nut cracker is very efficient at cracking walnuts and hazelnuts.
- No danger of finger injuries.
- It cracks the shell, but keeps nuts undamaged.
- Also useful for opening bottles with screw caps.

Available colour: brown
EAN: 3831091700107

Garlic Peeler

- It peels whole garlic cloves without leaving your fingers sticky.
- You cut off the root part of the clove, insert the clove into the peeler, press down firmly and roll. It removes the skin, while the clove remains undamaged.

Stainless Steel Soap

- The soap neutralizes or reduces unpleasant odours from the hands, such as strong odours of onion, garlic, fish, nicotine etc.
- Its secret lies in the compound of materials.

EAN: 3831091701821

Multi-purpose Opener

- Combines up to 5 functions as it can be used to open all kinds of tins, cans with a pull tab (compote, tuna), glass and plastic bottles with screw or metal caps (juices, mineral water, beer) or fizzy drink cans.
- Hygienic – the opener does not come into contact with the can contents.
- Opened cans do not have sharp edges and therefore our fingers stay safe!

Available colour: white
EAN: 3831091700138

No-Boil-Over Lid

- Cooking with no worries! The lid is concave-shaped, preventing liquids from boiling over the top of a cooking pot (rising liquids spread over the lid and then lower back into the pot). Therefore, cooking does no longer have to be supervised non-stop.
- Food retains more vitamins and fibres as you do not have to lift the lid during cooking.
- It saves energy, water and time because you no longer have to supervise the cooking process.
- One lid for pots in three sizes – 20, 22 in 24 cm in diameter.

Available colour: black
EAN: 3831091700916

Meat Tenderizer

- Easy and quiet way of preparing meat before roasting!
- The meat will be juicy and crispy, it will not bend while being roasted, and its roasting time will be shortened.
- The meat tenderizer softens the meat structure and can be used for beef, pork, poultry and even fish.
- One of its best features is helping you keep your kitchen counter clean.

Available colour: white
EAN: 3831091701135

Cookie Cutters

a 30-piece collection

Mamma's
Creative Kitchen Ideas

- **Fun and easy way of baking cookies for the whole family!**
- Perfect for designing a wide variety of cookies – filled cookie pockets in two sizes (great for pasta as well), cutters for upright cookies (Christmas tree, Santa Claus or Easter bunny), simple cutters for cookies in various shapes (footprint, hand, star, clover, heart, pear, truck, wrench), plate with cookie designs for making up to 23 different cookies at once, group designs for designing 4 hearts or 8 teardrops just with one cutter and others.
- Decorating accessories – decorating pen and letters for imprinting special thoughts.
- We did not forget your pets – cookie cutters shaped as bones and mice.
- All together up to 10 different sets of cookie cutters, including 10 free Christmas and New Year designs and a recipe booklet with creative ideas and useful tips for different types of dough.

According to customer's wishes, sets in various forms and different ways of packing can be arranged.

Available colour: white
EAN: 3831091701418

Household Products

Use environmental-friendly products!

Green Press
Plastic Bottle and Can Crusher

- Reduced volume of waste plastic bottles and cans up to 80%. Better use of storage space, easier recycling.
- The size of waste plastic bottles and cans can be reduced to one fifth of their original size.
- Suitable for crushing natural and mineral water bottles, isotonic drink bottles, yogurt bottles, juice cans, soft drink cans and beer cans.
- Compact and high quality materials, long lifespan.
- The crusher can be attached with the help of screws or double-sided adhesive tape provided.

EAN: 3831091701456

The product was awarded silver medal for innovation by the Chamber of Commerce of Dolenjska and Bela krajina (2010) in Slovenia.
Bestseller in Slovenia in 2010!

Less CO_2 emissions

In Slovenia we throw away approximately 500 000 000 plastic bottles a year. 5000 trucks are needed to transport these empty non-recycled plastic containers, each carrying 100 000 plastic bottles.

Green Press bottle and can crusher enables us to crush all waste bottles. As a result, only 1000 trucks are needed to carry 500 000 plastic bottles.

How would the number of trucks and CO_2 emissions decrease for your country, which is much bigger than Slovenia?

Hangers, racks and shelves

They do not take a lot of space – on the contrary, they create extra space and keep your flat tidy. Easy to install – without drilling or use of adhesives.
Give free rein to your imagination and use Status shelves and hangers exactly where and when you need them.
Amusing and innovative product packaging and therefore perfect for gifts.

- It is an adjustable clothes hanger as its extendable blue shoulder pads can be extended up to 4 cm.

EAN: 3831091700428

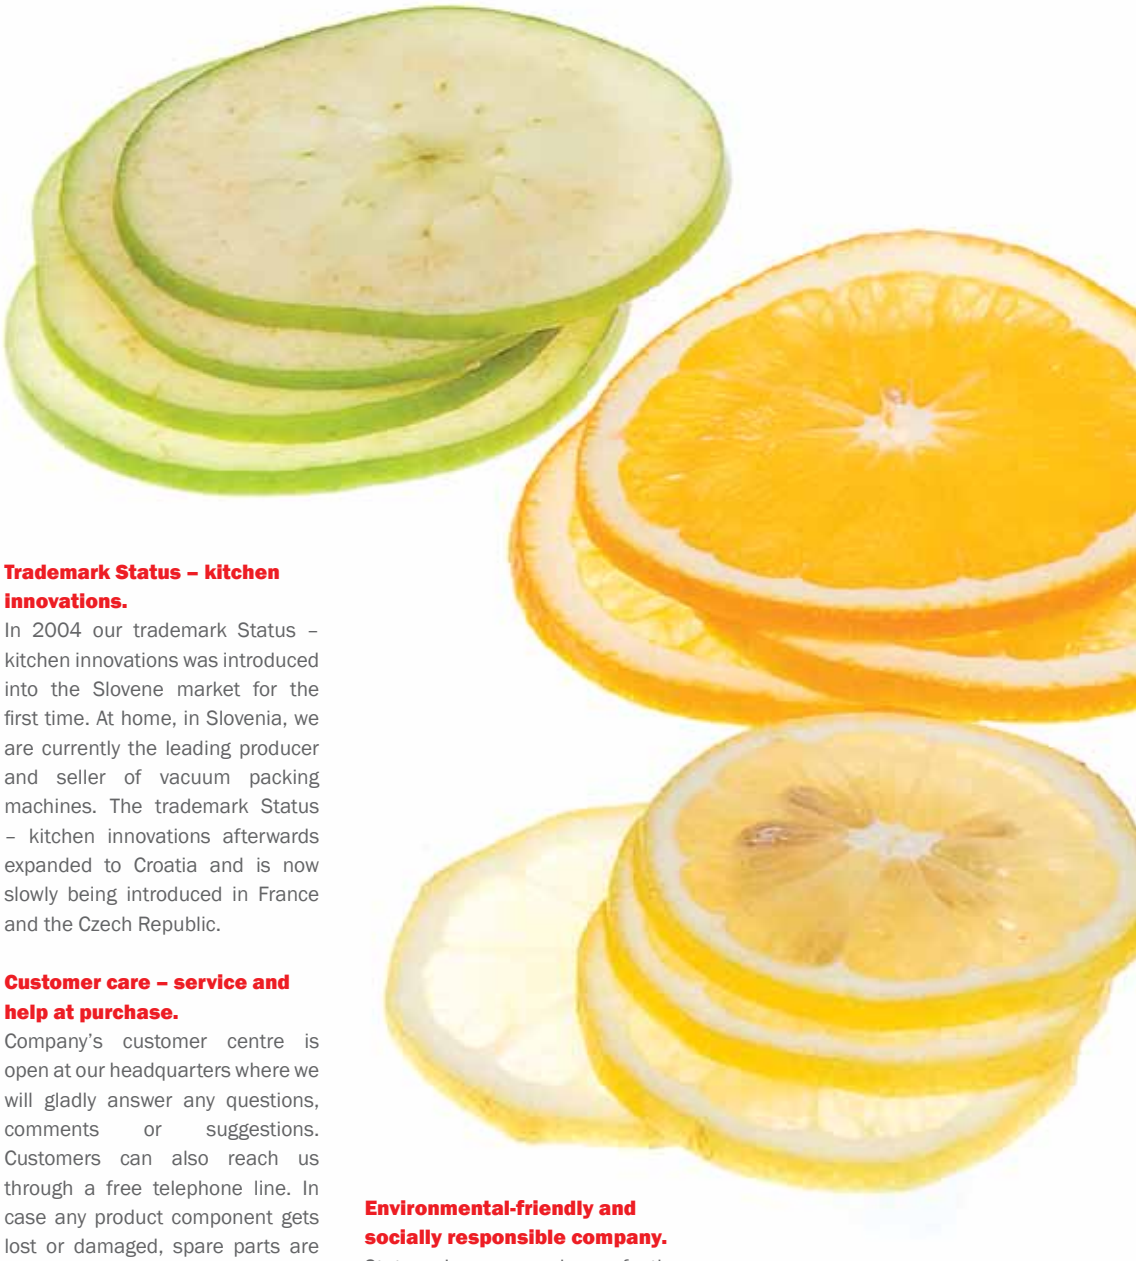
Company Information

The company Status d.o.o. Metlika (limited liability company) was founded in 1995. Since then we plan and manage the entire life cycle of our products.

Development of new products.
New products are developed on the basis of a detailed market analysis. Consumers play an important role in the development process as our products solve their daily problems.

Manufacture.
Manufacturing tools are constructed independently or in cooperation with our subcontractors. When choosing and purchasing materials, our primary consideration is quality. Products are assembled on the company premises under strict supervision of qualified professionals.

Selling products worldwide.
The majority of Status products are intended for export. Approximately 75% of the products are exported to EU countries and the other part to countries all over the world. Export activities are partly carried out in collaboration with a German business partner Genius and under their trade mark. Some of the world's leading companies have already recognized the quality of our products, such as WMF and Rösle (they sell garlic cutters) and Laica from Italy (products for vacuum storage).



Trademark Status – kitchen innovations.
In 2004 our trademark Status – kitchen innovations was introduced into the Slovene market for the first time. At home, in Slovenia, we are currently the leading producer and seller of vacuum packing machines. The trademark Status – kitchen innovations afterwards expanded to Croatia and is now slowly being introduced in France and the Czech Republic.

Customer care – service and help at purchase.
Company's customer centre is open at our headquarters where we will gladly answer any questions, comments or suggestions. Customers can also reach us through a free telephone line. In case any product component gets lost or damaged, spare parts are always available. Our website offers video clips with tips on how to use our products and enable their long lifespan.

Environmental-friendly and socially responsible company.
Status is a member of the ZEOS group (company for waste electrical and electronic equipment management). We separately collect waste arising from manufacture, recycle what we are able to and reuse recycled materials for other purposes.
